Workshop Objectives

Proper storage and handling techniques for photograph collections be they archival or museum in nature. Ways to minimize potential damage and information loss in an emergency or disaster.

Upon completion of this workshop, participants will be able to:

- Identify and explain differences in structure, composition, and format of various types of photographic materials
- Identify agents of deterioration and understand the mechanisms of deterioration
- Implement proper handling and storage procedures for photographic collections as well as select appropriate housing enclosures and storage materials
- Develop some understanding of salvage and recovery procedures for photographs following a disaster

We gratefully acknowledge the financial support of the Saskatchewan Lotteries Trust Fund for Sport, Culture and Recreation¹ through SaskCulture Inc. We also thank the University of Saskatchewan for providing the facilities for the workshop.

Please make cheques payable to the Saskatchewan Council for Archives and Archivists.
